A Survey on Perceived Stress Among Doctors During the COVID - 19 Pandemic

Dear colleagues
We are all facing various issues due to the current pandemic of COVID-19 irrespective of borders.

We are conducting this survey to understand the extent of stress among doctors due to the current scenario of COVID -19. We are also looking into the various problems that are adding to the stress for doctors. Please answer these questions after reading each question carefully. Some of these questions may appear to ask the same thing, but they are different! Kindly answer every question.

This survey will help us unite our community during this difficult time and also help us design strategic planning unitedly to combat various problems faced by us during this pandemic and help us prepare for the future.

Kindly spare 5-10 minutes of your valuable time to answer this questionnaire. Your support and co-operation is greatly appreciated.

Thanks and regards

* Required

Basic Information

1. Age *

Mark only one oval.

- 18-30 years
- 31-45 years
- 46-60
- > 60 years

2. Gender *

Mark only one oval.

- Female
- Male
- Other Gender

3. Which is your state of residence? *

_____
