

Supplemental Tables

Table e-1

Cognitive domain	Assessments
Memory	Three sub-scores derived from a 12-word five trial list-learning task: list learning total score, delayed recall score, and delayed recognition score
Language	Picture naming (modified Boston Naming) test, Category fluency (Animal Naming) test, Phonemic fluency (C, F, L in English speakers and P, S and V in Spanish speakers)
Processing Speed	Color Trails test Form 1 [¥] , Grooved Pegboard task (non-dominant hand) [¥]
Executive Function	Difference in time to complete the Color Trails test Form 1 [¥] and Form 2 [¥] , Sum of the Odd-Man-Out subtests 2 and 4

[¥] For the participants who did not complete the tasks within the maximum time allowed, “imputed” time was calculated by adding penalty time to maximum time allowed. The penalty time was obtained by multiplying the number of incomplete items by “expected time per correct items completed” estimated using Kaplan-Meier.

Table e-2: immune markers selected by Least Absolute Shrinkage and Selection Operator procedure as linearly associated with global cognition score and each domain score

Global Cognitive Score	Memory	Language	Processing Speed	Executive Function
CCL11	CCL11	CCL11	CCL11	CCL11
CXCL9	CXCL9	CXCL9	CXCL9	CXCL9
HGF	HGF	HGF	HGF	HGF
Serpin_E1	Serpin_E1	Serpin_E1	Serpin_E1	Serpin_E1
sFasl	sFasl	sFasl	sFasl	Leptin
SCF	CSF2	Leptin	CSF2	CCL3
Leptin	SCF	CCL3	SCF	CCL2
CCL3	CXCL12a	IL12p40	CCL2	PDGFBB
	IL21		IL1a	
	CCL4		IFNb	
	TGFa			

CCL11 = C-C Motif Chemokine Ligand 11; CXCL9 = C-X-C Motif Chemokine Ligand 9;
HGF = hepatocyte growth factor; sFasL = soluble Fas ligand; SCF = stem cell factor;
CSF2 = Colony stimulating factor 2; CCL2 = C-C Motif Chemokine Ligand 2;
CCL3 = C-C Motif Chemokine Ligand 3; CCL4 = C-C Motif Chemokine 4;
IL12p40 = interleukin-12 p40; IL21 = interleukin 21; IL1a = interleukin 1a; CCL4 = C-C Motif Chemokine Ligand 4; IFNb = interferon beta; PDGFBB = Platelet derived growth factor-BB;
TGFa = transforming growth factor α ; TRAIL = Tumor necrosis factor-related apoptosis-inducing ligand

Table e-3. Association of immune markers and interactions with memory domain*

Immune marker [†]	Estimate	Standard Error	Pr > ChiSq
