

Supplementary Information

S 1. Compliance of Mask Use in Gatherings

Total = 171

Figure S1. Compliance of mask use of survey participants when attending gatherings of 2+ people, discounting roommates (n=171).

S 2. Characteristics of Mask Discomfort (Other)

Table S2. Characteristics of current masks survey participants (n = 688) listed that they disliked.

What characteristics of current masks do you dislike? - Other
Sometimes my face will get irritated
Sometimes light-headed from walking with mask on
The earloop strings often break. Have to carry two just in case.
moisture from my breath accumulates, which does not cause the mask to stick to my face but is still uncomfortable
the masks are too big/need a lot of readjustment
It's itchy on my face. Irritates my face
Acne caused by mask
Causes mask acne
Makes my face breakout
I run with my mask on, humidity makes it challenging to breath
Some surgical masks are too large and dont conform to my face
I get acne where the mask touches my skin
They are usually way too big on my face.
Maskne
Curly my beard
size can be issue. loops pull on ears and give me headache
mask slides down my nose

I don't trust the filtration (or there's no filter at all)
Too loose/has gaps
Mask Acne
Earloops that aren't adjustable :(
exercising
Getting acne from masks
Hard to exercise in masks
The nose size doesn't fit, causing the mask to dig into my nose
The extent to which masks mold to the jawline is very awkward. Instead of following what is a prominent bone structure of most faces, they approximate it with round or square shapes.
Cotton mask feels heavy on my face. I'm happy with/used to my surgical mask though!
The current masks make certain exercises difficult like running.
Masks are often too big on me and fall off my ears
Masks don't fit quite right
ACNE
The ear loops tend to fall off
Trouble breathing only while running
Slips down off my nose
Hard to talk--mask gets in mouth when it doesn't have enough structure
if i'm not careful, i break out on my face where the mask is
Some do not conform to the contours of my face, leaving gaps.
Some masks don't cover my entire (short) beard, and I prefer masks that do.
the little threads on the surgical masks make me sneez
mask isn't a snug fit on my face so it slides down
ear loops on fabric masks loosen too quickly (either the elastic stretches out or the knot comes undone)
Hard to do work with mask on, difficulty breathing, odors
uncomfortable around nose
rubber loops on N95s pull on hair, and the ear loops on masks need to be the correct length so they don't yank on your ears, an adjustable length on the ear loops would be a good feature
my nose keeps falling out
Ones that don't tie stretch out, leading to falling masks and a constant need for readjustment.
Hard to speak
acne

I wanna cultivate my neckbeard but the mask makes me look like an ogre
I get headaches when I wear masks
See previous answer. My issue is both all of the above and much more with respect to principles.
makes my nose itchy
Scent
I don't feel protected enough by certain masks, some leave too much space for air to get in

S 3. Key Parameters

Table S3. Key parameter values for different face masks.

Material	Air Resistance (kPa*s/m)	Water Vapor Permeability (g/hr)	Face Temperature Change (°C)
Surgical/Procedural Mask*	0.63	-0.303	0.5
Cotton Mask*	0.28	-0.421	0.8
N95 Mask**	3.65	-0.217	1.4611
KN95 Mask***	3.65	-0.217	1.4611

* All input parameter values were derived from Lee et al., 2020.

** Air resistance and water vapor permeability values were derived from values from Kim et al., 2015 and Li et al., 2006 respectively; face temperature change value was estimated from KN95 mask face temperature tests.

*** Air resistance and water vapor permeability values were estimated from N95 values; face temperature change value was obtained from face temperature change tests previously described.

S 4. Air Resistance

Table S4: Changes in average Respiratory Rate for each participant in breaths per minute observed for various masks

Mask	Air Resistance (kPas/m)	Change in Average Respiratory Rate for Participant (breaths / min)									
		1	2	3	4	5	6	7	8	9	Average
No Mask	0	0	0	0	0	0	0	0	0	0	0
Cotton Mask	0.28	0.0341	3.7522	0.4133	2.751	0.3558	1.9122	1.3761	1.0476	2.1093	1.5280
Surgical/Procedural Mask	0.63	3.0582	4.9622	1.3923	1.9807	0.6925	0.9903	1.2934	0.8578	0.5323	1.7511
KN95	3.65	3.0919	4.1567	1.6349	NaN	NaN	NaN	NaN	NaN	NaN	2.9611

S 5. Face temperature change

Table S5. Face temperature increase and comfort level for tested masks.

Mask	Average Face Temperature Change (°C)	Average Comfort Level (1-10, 10 most comfortable)
------	--------------------------------------	---

	10 Minutes Rest	30 Jumping Jacks	10 Minutes Rest	30 Jumping Jacks
No mask	0.3	0.1	10	10
Cotton	0.5	0.8	7.5	7
Surgical/Procedural	0.4	0.1	7.5	7.3
KN95	1.4	1.1	6.5	5.7

S 6. Distribution of comfort rankings for listed masks by survey participants

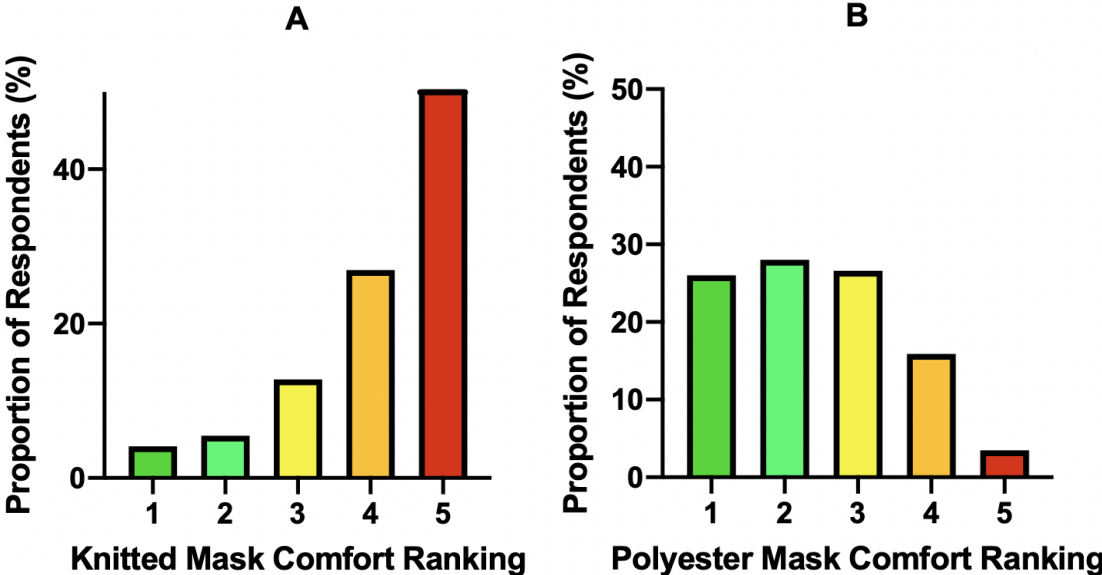

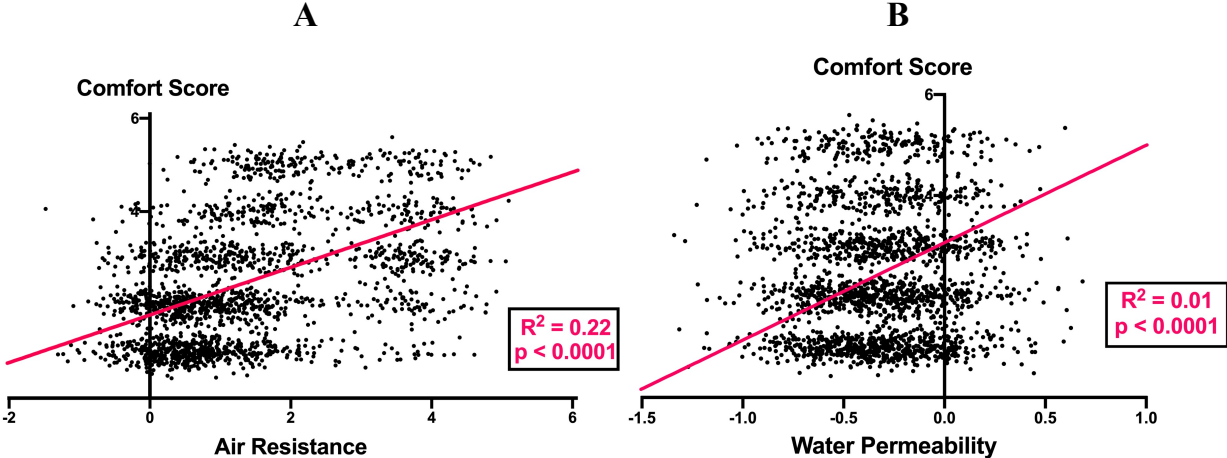

Figure S6. Distribution of comfort rankings for listed masks by survey participants (1 = most comfortable, 5 = least comfortable). A) 77.58% of participants who ranked knitted masks (n = 219) scored them 4 or 5. B) 54% of participants who ranked polyester masks (n = 346) scored them 1 or 2.

S 7. Correlation between each key parameter to comfort score

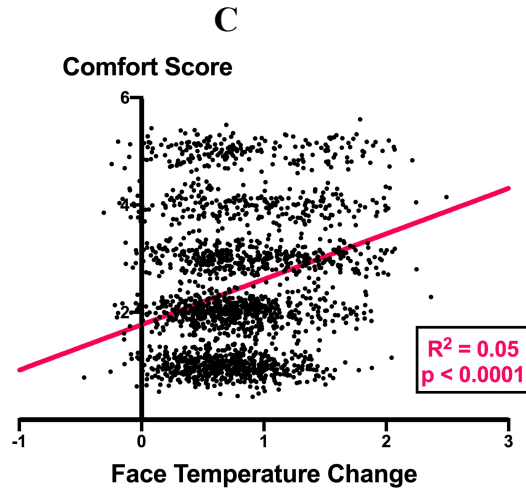

Figure S7. Correlation between Comfort Score and (A) Air Resistance (B) Water Vapor Permeability and (C) Face Temperature Change. P values for each parameter were calculated through the F-test.

S 8. Confidence interval analysis of comfort scores

	Cotton Mask	Surgical/ Procedural Mask	Polyester Mask	N95 Mask	Knitted Mask
Average Comfort Score in Campus Survey	1.80	1.84	2.44	3.28	4.15
95% Confidence Interval	(1.73, 1.88)	(1.76, 1.91)	(2.31, 2.56)	(3.16, 3.40)	(4.00, 4.30)
Comfort Score Predicted by Linear Regression Model	1.81	1.81	2.48	3.26	4.16

S 9. Reference figure for survey respondents to rank the comfort of different masks

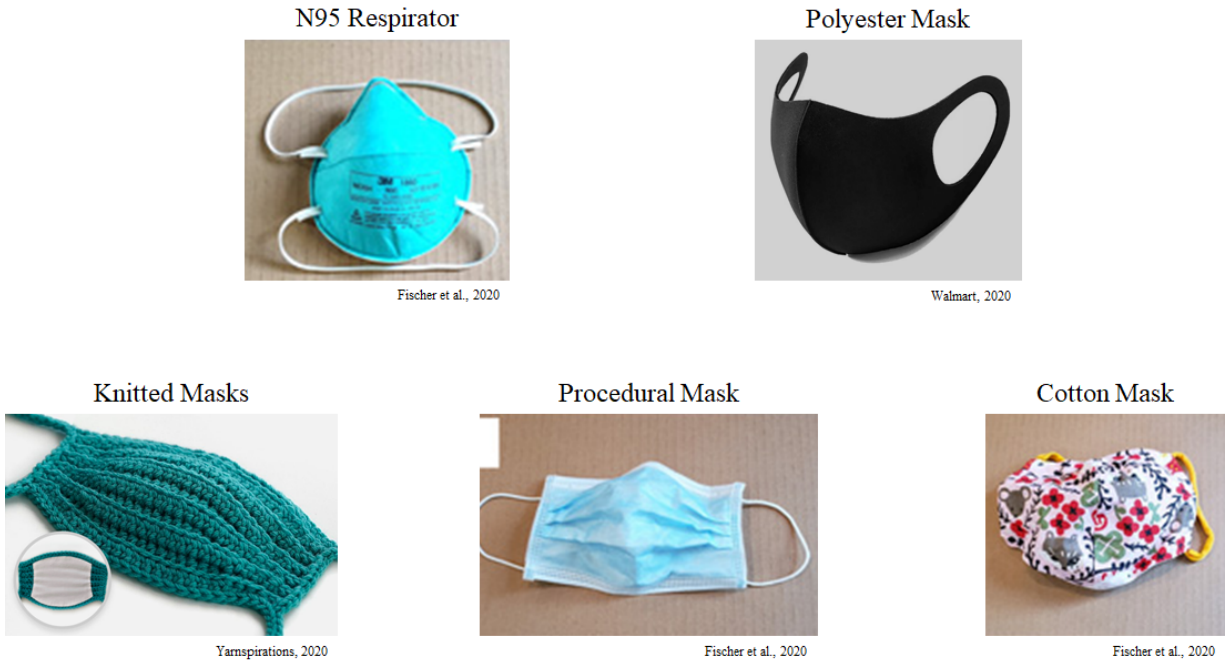

Figure S9. Reference figure for survey respondents to rank the comfort of different masks. Example images of cotton masks, surgical/procedural masks, N95s (or other respirators), knitted masks, and polyester masks were provided.

S 10. Survey Questions

1. Please rank the below masks and face coverings you've worn from MOST comfortable to LEAST comfortable. (Drag and Drop)

Items	Most (top) to least (bottom)
Cotton Masks	
Surgical/procedural masks	
N95s (or other respirators)	
Knitted masks	
Polyester masks	

2. What characteristics of current masks do you dislike?
 - a. Earloops irritate my ears
 - b. I have trouble breathing with my mask on
 - c. Masks cause my glasses to fog up
 - d. Moisture from my breath accumulates, causing the mask to stick to my face
 - e. Heat accumulates inside my mask
 - f. Mask frame material digs into my face
 - g. None - the current masks are perfect
 - h. Other [Open-Ended Text Response]
3. How often do you meet with a group of 2+ people (discounting roommates)?

- a. Everyday
 - b. A few times a week
 - c. A few times a month
 - d. Never
4. For these gatherings of 2+ people:
- a. Do you wear a mask during these gatherings?
 - i. Always
 - ii. Most of the time
 - iii. Sometimes
 - iv. Rarely
 - v. Never
 - b. Do you meet outdoors?
 - i. Always
 - ii. Most of the time
 - iii. Sometimes
 - iv. Rarely
 - v. Never
 - c. If indoors, how often do you have your HEPA filter on?
 - i. Always
 - ii. Most of the time
 - iii. Sometimes
 - iv. Rarely
 - v. Never
5. On a scale of 1-10, to what extent do you think people on campus follow social distancing rules?
- a. 1: No one follows the rules
 - b. 10: Everyone always follows the rules
6. On a scale of 1-10, how likely do you think consequences will be enforced?
- a. 1: No one follows the rules
 - b. 10: Everyone always follows the rules
7. How often are your nose or mouth uncovered when wearing a mask?
- a. All the time
 - b. Most of the time
 - c. Sometimes
 - d. Rarely
 - e. Never
8. How often do you wear a mask that is NOT provided by the University (i.e. NOT the procedural masks)?
- a. Always
 - b. Most of the time
 - c. Sometimes
 - d. Rarely
 - e. Never
9. Do you ALWAYS keep the HEPA filter in your room running?
- a. Yes

- b. No
 - i. If no, why not? [textbox]
- 10. Do you wear a mask while walking/commuting on campus and around the Square?
 - a. Always
 - b. Most of the time
 - c. Sometimes
 - d. Rarely
 - e. Never
- 11. If you don't wear a mask, why not? [textbox]
- 12. How many non-dining workers do you encounter while picking up your meal?
 - a. 0 people
 - b. 1-2 people
 - c. >3 people
- 13. Do you wear a mask outside of your dorm room while still in your house?
 - a. Always
 - b. Most of the time
 - c. Sometimes
 - d. Rarely
 - e. Never
- 14. How frequently do you dine at non-Harvard cafes/restaurants?
 - a. Everyday
 - b. A few times a week
 - c. A few times a month
 - d. A few times a semester
 - e. Never
- 15. How frequently do you eat a meal with one or more people? (discounting roommates)
 - a. Everyday
 - b. A few times a week
 - c. A few times a month
 - d. A few times a semester
 - e. Never
