

Addressing racial/ethnic disparities in the COVID-19
vaccination campaign
Supplemental Appendix

Technical Notes

1. Vaccination data for Hispanic adults in Alabama were treated as missing because ethnicity is missing for more than half of data. Data for Georgia were from March 22, 2021, as data on race/ethnicity stopped being reported due to a technical issue. Data for Indiana and Maine did not include individuals receiving the Janssen vaccine because the reporting structure for these states did not permit combining individuals receiving first-dose of a two-dose vaccine and individuals receiving the single-dose vaccine. Data for North Dakota were not included because the reporting structure does not permit computation of vaccine distribution by race/ethnicity. Hawaii, Montana, New Hampshire, and Wyoming did not report vaccine distribution by race/ethnicity as of March 31, 2021.
2. The age distribution of vaccinations was unavailable from Arkansas, Georgia, Hawaii, Montana, New Hampshire, New York, and Wyoming as of March 31, 2021. We used the national distribution of vaccinations across age groups for these states.
3. When state-specific data to permit estimation of relative uptake rates by race/ethnicity were unavailable, we used relative uptake rates estimated at the census division level. Racial/ethnic groups that did not have state-specific data available together comprised 2.0% of the United States population aged 16 years and older.
4. State-specific figures in the Supplement only visualize data for racial/ethnic groups with at least 200,000 individuals aged 16 years or older.

Supplemental Figures: State-Specific Scale-Up Scenarios

Alaska

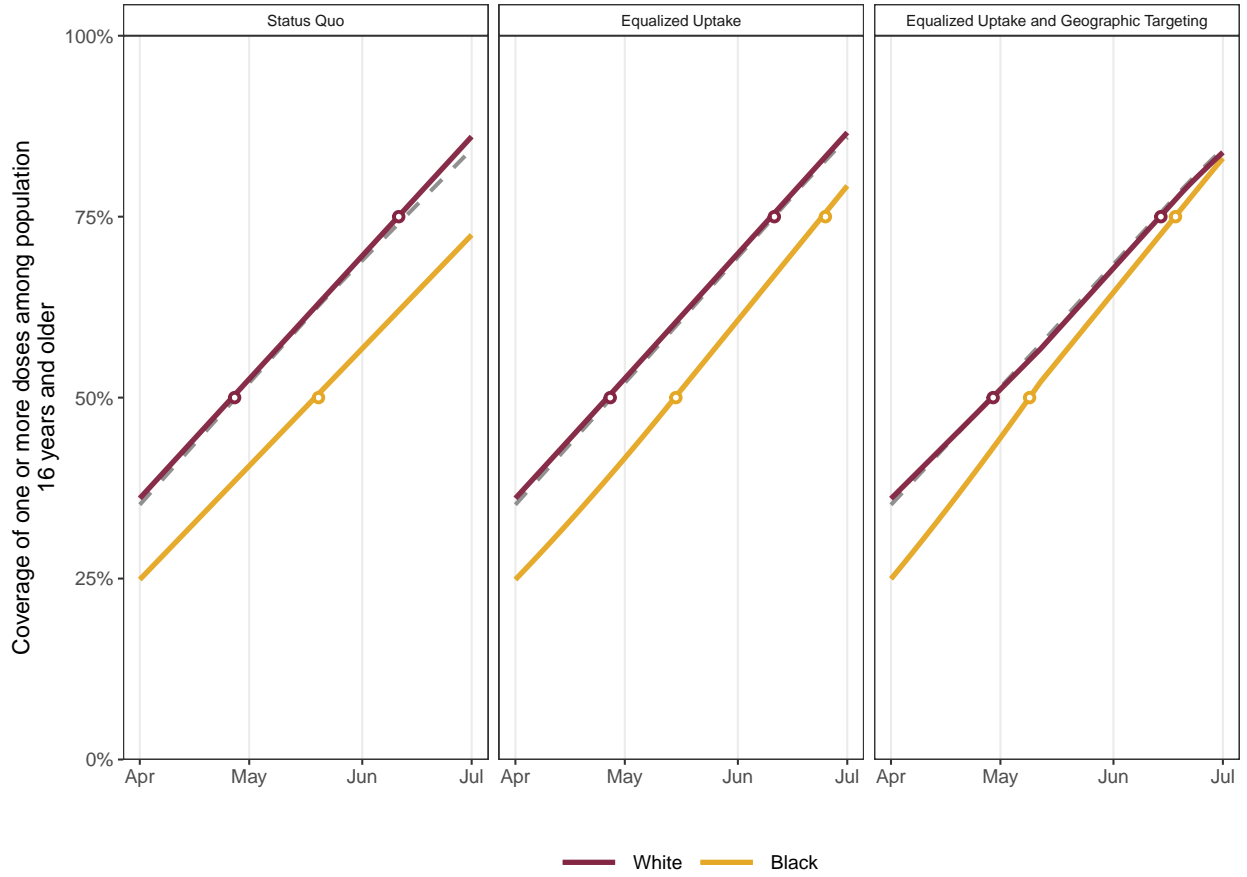

Dashed line shows overall coverage among the Alaska population aged 16 years and older

Arizona

Dashed line shows overall coverage among the Arizona population aged 16 years and older

Arkansas

Dashed line shows overall coverage among the Arkansas population aged 16 years and older

California

Dashed line shows overall coverage among the California population aged 16 years and older

Colorado

Dashed line shows overall coverage among the Colorado population aged 16 years and older

Connecticut

Dashed line shows overall coverage among the Connecticut population aged 16 years and older

Delaware

Dashed line shows overall coverage among the Delaware population aged 16 years and older

District of Columbia

Dashed line shows overall coverage among the District of Columbia population aged 16 years and older

Florida

— Hispanic — White — Black — Asian

Dashed line shows overall coverage among the Florida population aged 16 years and older

Georgia

Dashed line shows overall coverage among the Georgia population aged 16 years and older

Hawaii

Dashed line shows overall coverage among the Hawaii population aged 16 years and older

Idaho

Dashed line shows overall coverage among the Idaho population aged 16 years and older

Indiana

Legend: — Hispanic — White — Black
Dashed line shows overall coverage among the Indiana population aged 16 years and older

Kansas

Dashed line shows overall coverage among the Kansas population aged 16 years and older

Kentucky

Dashed line shows overall coverage among the Kentucky population aged 16 years and older

Louisiana

Dashed line shows overall coverage among the Louisiana population aged 16 years and older

Maine

Dashed line shows overall coverage among the Maine population aged 16 years and older

Maryland

Dashed line shows overall coverage among the Maryland population aged 16 years and older

Massachusetts

Dashed line shows overall coverage among the Massachusetts population aged 16 years and older

Michigan

Dashed line shows overall coverage among the Michigan population aged 16 years and older

Minnesota

Dashed line shows overall coverage among the Minnesota population aged 16 years and older

Mississippi

Dashed line shows overall coverage among the Mississippi population aged 16 years and older

Missouri

Dashed line shows overall coverage among the Missouri population aged 16 years and older

Montana

Dashed line shows overall coverage among the Montana population aged 16 years and older

Nebraska

Dashed line shows overall coverage among the Nebraska population aged 16 years and older

Nevada

— Hispanic — White — Black — Asian

Dashed line shows overall coverage among the Nevada population aged 16 years and older

New Hampshire

Dashed line shows overall coverage among the New Hampshire population aged 16 years and older

New Jersey

Dashed line shows overall coverage among the New Jersey population aged 16 years and older

New Mexico

Dashed line shows overall coverage among the New Mexico population aged 16 years and older

New York

Dashed line shows overall coverage among the New York population aged 16 years and older

North Carolina

Dashed line shows overall coverage among the North Carolina population aged 16 years and older

North Dakota

Dashed line shows overall coverage among the North Dakota population aged 16 years and older

Oklahoma

Dashed line shows overall coverage among the Oklahoma population aged 16 years and older

Oregon

Dashed line shows overall coverage among the Oregon population aged 16 years and older

Pennsylvania

Legend: — Hispanic — White — Black — Asian
 Dashed line shows overall coverage among the Pennsylvania population aged 16 years and older

Rhode Island

Dashed line shows overall coverage among the Rhode Island population aged 16 years and older

South Carolina

Dashed line shows overall coverage among the South Carolina population aged 16 years and older

South Dakota

Dashed line shows overall coverage among the South Dakota population aged 16 years and older

Tennessee

Dashed line shows overall coverage among the Tennessee population aged 16 years and older

Dashed line shows overall coverage among the Texas population aged 16 years and older

Dashed line shows overall coverage among the Utah population aged 16 years and older

Vermont

Dashed line shows overall coverage among the Vermont population aged 16 years and older

Virginia

— Hispanic — White — Black — Asian

Dashed line shows overall coverage among the Virginia population aged 16 years and older

Washington

— Hispanic — White — Black — Asian

Dashed line shows overall coverage among the Washington population aged 16 years and older

West Virginia

Dashed line shows overall coverage among the West Virginia population aged 16 years and older

Wisconsin

Dashed line shows overall coverage among the Wisconsin population aged 16 years and older

Wyoming

Dashed line shows overall coverage among the Wyoming population aged 16 years and older
