

TABLE OF CONTENTS

02	Welcome Letter	53	A Bigger Role For Ambient Interfaces	64	Personality and Character Recognition	74	New Open Source App Vulnerabilities
08	Executive Summary	53	Deep Linking Everywhere	65	Ambient Proximity	74	Selfie Security Using Faceprints
08	Key Takeaways	54	Making AI Explain Itself	66	Hidden Bias in Recognition Technologies	74	Bounty Programs
10	Guide To The Year Ahead	54	Accountability and Trust			79	The General Data Protection Regulation Takes Effect
12	Methodology	54	Hidden Bias Leads To Big Problems	67	Security, Privacy and Data	79	Right To Eavesdrop/ Be Eavesdropped On
15	How To Use Our Report	55	China's AI Boom	69	Compliance Challenges and Unrealistic Budgets	79	Defining What Constitutes Online Harassment
16	Ten Important Questions	56	Real-Time Machine Learning	69	DDoS Attacks Will Increase	80	Drone Surveillance
22	The Most Important Tech Trends For Your Industry And Organization	56	Natural Language Understanding (NLU)	69	Ransomware As A Service	80	Personal and One-To-Few Networks
47	Artificial Intelligence	56	Natural Language Generation (NLG)	70	Russia's Gifted Hacker Community Grows	80	Leaking
51	The AI Cloud	56	Machine Reading Comprehension (MRC)	70	New Infrastructure Targets	80	Blocking the Ad Blockers
51	Proprietary, Homegrown AI Languages	57	Generative Algorithms For Voice, Sound and Video	70	Hactivism On The Rise	81	Organizational Doxing
51	AI Chipsets	57	Image Completion	71	Third-Party Verified Identities	81	Anonymity
52	Cognitive Computing	57	Predictive Machine Vision	71	Targeted Attacks on Digital Assistants	81	Authenticity
52	Bots	57	Much Faster Deep Learning	71	Zero-Knowledge Proofs	81	Differential Privacy
52	Marketplaces For AI Algorithms	57	Reinforcement Learning and Hierarchical RL	71	Go Commercial	82	Anti-Recognition Cammo and Glasses
52	More Consolidation in AI	57	Continuous Learning	71	Zero-Day Exploits On The Rise	82	Digital Self-Incrimination
53	Consumer-Grade AI Applications Debut	58	Multitask Learning	71	Backdoors	82	SWATting at Trolls
53	Digital Assistants Become Ubiquitous	58	Adversarial Machine Learning	73	Remote Kill Switches	83	Revenge Porn
				73	AI-Powered Automated Hacking	83	Eye In The Sky
				59	Recognition Technologies	83	Law Enforcement Using Recognition Algorithms To ID Faces
				60	Faceprints	84	Data Retention Policies
				61	Voiceprints	84	Encryption Management
				62	Wifi Tracking		
				63	Gesture Recognition		
				73	Offensive Government Hacking		
				73	More Cyber Mission Forces in the Field		
				73	Strange Computer Glitches Will Keep Happening		
				74	Proliferation of Darknets, Aided By Cryptocurrencies		

84	Who Owns Your Personal, Biometric Data?	103	Autonomous Vehicle Testing In Cities Around the U.S.	122	Notification Layer (A Tragedy of the Commons)	145	Retail APIs
85	Global Data Scientist Shortages	103	Armchair AV Mechanics	123	Journalism as a Service (Jaas)	146	Digital Associates
86 Advanced Robotics		103	Assisted Driving Before Full Automation	124	Transparency in Metrics	147 Energy	
87	Self-Assembling Robots	104	Adaptive Driving Systems	125	Real-Time Fact Checking	148	Green Tech
88	Robot Compilers	104	Vehicle-to-Vehicle (V2V) Communications	126	Offline Is The New Online	149	Charging Stations
89	Molecular Robotics	104	Electric Vehicles	127	Audio Search Engines	150	Ultra-High-Voltage Direct Current and Macro Grids
90	Collaborative Robotics	104	Cars as Interfaces	128	Synthetic Data Sets	151	Better Batteries
91	Ethical Manufacturing	104	Solar Highways	129	Connected TVs	152 Climate And Geoscience	
92	Soft Robotics	105	Autonomous Vehicle Legislation	129	Decentralizing The Web	153	Anthropocene
93	Human-Machine Interfaces	105	Flying Cars	130	New Video and Audio Story Formats	155	Extreme Weather Events
94	Smart Dust	106	Flights	131	Media Consolidation	157	Human Migration Patterns Shift
95	Personal Robots and Butlers	107	Autonomous Ships	132	Tweaks To Social Network Algorithms	158	Geoengineering
97	Robot Abuse	108 News Media, Book Publishing, Social Networks and the First Amendment		133	The First Amendment in a Digital Age	159 Agricultural Technologies	
98	3D Printing	110	Natural Language Generation for Reading Levels	134 Entertainment Media		160	Indoor and Outdoor Plant Factories and Microfarms
99 Transportation		111	Computational Photography	135	Holograms	161	Deep Learning For Farming and Food Recognition
100	Autonomous Underwater Vehicles (AUVs)	112	Computational Journalism	135	Virtual Reality	162	Smart Farms
100	Drone Delivery	113	I-Teams For Algorithms and Data	136	360-degree Video	163	Terraforming
101	Increasing Patents and Calls For New Regulation	114	Voice Interfaces For News and Books	136	Augmented Reality	164	Cultivated Food and Beverage
102	Drone Lanes	115	Proximity News	137	Mixed Reality Arcades	165 Biotechnologies, Genomic Editing and Biointerfaces	
102	Personal Home Drone Surveillance	116	Crowdlearning	138	MMQMRGs	170	Genome Editing
102	Sense And Avoid Technology	117	Digital Frailty	141 Marketing and Advertising Technologies		170	Biological DVRs
102	Microdrones and Drones Used In Dangerous/Hard-To-Reach Areas	119	Radical Transparency	142	VR For Marketing	170	Human DNA-Powered Devices
102	Drone Swarms	120	Limited-Edition News Products	143	AI For the Creative Process	170	Using Our DNA As Hard Drives
102	Clandestine, Disappearing Drones	121	One-To-Few Publishing	144	FOBO	170	Nanobot Nurses
						170	Custom-Crafted Microbes

171	Precision Medicine Just For You	184	Smart Homes and the Internet Of Things	204	Social Payments	235	About the Authors
171	Running Out Of Space For Genome Storage	186	Privacy Laws, Net Neutrality and Hackers Threaten the Internet of Things	205	Cryptocurrencies	236	About The Future Today Institute
171	Genome Editing Research Clashes With Public Opinion	188	Searching The Internet of Physical Things	207	Blockchain	237	Disclaimer
171	Nootropics and Neuroenhancers	189	Intelligent Cameras	208	Open Banking	238	The Signals Are Talking
172	Microbiome Extinction	190	Our Appliances Will Have Digital Assistants	209	Financial Inclusion and Targeting the Underbanked	239	Companies, Organizations, Universities and Government Agencies Mentioned In Our 2018 Trends Report.
173	Building A Comprehensive Human Cell Atlas	190	Smart Appliance Screens Are Coming	210	Smart Cities	247	Contact Information
