Orange: defined as pathogenic in this study; Blue: defined as likely pathogenic in this study.

Abbreviations: All_AF: allele frequency in the Singapore population; CHS_AF: allele frequency amongst Chinese; INS: allele frequency amongst Indians; MAS: allele frequency amongst Malays; ExAC_ALL: allele frequency in the ExAC browser; GnomAD_exome_ALL: allele frequency in the gnomAD browser; AMR_AF: allele frequency in the American population; NFE_AF: allele frequency in the Non-Finnish European population; SAS_AF: allele frequency in the South Asian population; SEA_AF: allele frequency in the Southeast Asian population; NEA_AF: allele frequency in the Northeast Asian population. Nil: no data available
