

Supplementary Table 1. Comparison of responders and non-responders to the lifestyle change questions on the COVID1 questionnaire

| Variable | Description | n | Data on lifestyle changes | No data on lifestyle changes | χ^2 | p |
|--------------------|---------------------------------------|-------|---------------------------|------------------------------|----------|-------|
| Child gender | Male | 2053 | 766 (28.83%) | 1287 (48.11%) | 209.32 | <.001 |
| | Female | 3279 | 1891 (71.17%) | 1388 (51.89%) | | |
| Child ethnicity | White | 4865 | 2455 (96.58%) | 2410 (95.45%) | 4.24 | 0.039 |
| | Not white | 202 | 87 (3.42%) | 115 (4.55%) | | |
| NEET at 23 | In education, employment, or training | 2967 | 1886 (94.96%) | 1081 (92.79%) | 6.32 | 0.012 |
| | NEET | 184 | 100 (5.04%) | 84 (7.21%) | | |
| Maternal education | O level/GCSE and below | 2,723 | 1289 (50.08%) | 1434 (55.88%) | 17.39 | <.001 |
| | A level and above (degree) | 2,417 | 1285 (49.92%) | 1132 (44.12%) | | |
| Parity | First born | 2,466 | 1267 (49.11%) | 1199 (46.69%) | 4.9 | 0.086 |
| | Second born | 1,794 | 895 (34.69%) | 899 (35.01%) | | |
| | Third or more born | 888 | 418 (16.20%) | 470 (18.30%) | | |
| Home ownership | Don't own home | 865 | 377 (14.58%) | 488 (18.91%) | 17.37 | <.001 |
| | Own home | 4,302 | 2209 (85.42%) | 1093 (81.09%) | | |

Comparison amongst those sent the COVID1 questionnaire (n=5332). NEET = Not in education, employment, or training

Supplementary Table 2. Derivation of disordered eating and self-harm variables at age 24

| Questions | Answers | Coding | Final variable |
|---|---|--|--|
| Fasting | | | |
| During the past year , how often did you fast (not eat for at least a day) to lose weight or avoid gaining weight? | 0. Never 1. Less than once a month 2. 1-3 times a month 3. Once a week 4. More than once a week | Any fasting 0 = “no” 1-4 = “yes” DSM fasting 0-2 = “no” 3-4 = “yes” | Any fasting |
| Purging | | | |
| During the past year , how often did you make yourself throw up to lose weight or avoid gaining weight? | 0. Never 1. Less than once a month 2. 1-3 times a month 3. Once a week 4. More than once a week | Any self-induced vomiting 0 = “no” 1-4 = “yes” DSM self-induced vomiting 0-2 = “no” 3-4 = “yes” | Any purging Any self-induced vomiting OR Any laxative use OR Any other medication use |
| During the past year , how often did you take laxatives to lose weight or avoid gaining weight? | 0. Never 1. Less than once a month 2. 1-3 times a month 3. Once a week 4. More than once a week | Any laxative use 0 = “no” 1-4 = “yes” DSM laxative use 0-2 = “no” 3-4 = “yes” | |
| During the past year , how often did you take other tablets/pills/any other medications or substances to lose weight or avoid gaining weight? | 0. Never 1. Less than once a month 2. 1-3 times a month 3. Once a week 4. More than once a week | Any other medication use 0 = “no” 1-4 = “yes” DSM other medication use 0-2 = “no” 3-4 = “yes” | |
| Excessive exercise | | | |
| During the past year , how often did you exercise to lose weight or avoid gaining weight ? | 0. Never 1. Less than once a month 2. 1-3 times a month 3. 1-4 times a week 4. 5 or more times a week | Any exercise to lose weight 0 = “no” 1-4 = “yes” DSM exercise to lose weight 0-2 = “no” 3-4 = “yes” | Any excessive exercise Any exercise to lose weight AND Exercise interfered with life OR Exercise when sick/injured |
| Was it difficult for you to do your work or daily chores/routine because of the amount of time that you were exercising to lose weight or avoid gaining weight? | 0. No 1. Yes, sometimes 2. Yes, frequently | Exercise interfered with life 0-1 = “no” 2 = “yes” | |
| Did you exercise to lose weight or avoid gaining weight even when you were sick or injured? | 0. No 1. Yes, sometimes 2. Yes, frequently | Exercise when sick/injured 0-1 = “no” 2 = “yes” | |
| Binge eating | | | |
| Sometimes people will go on an ‘eating binge’, where they eat an amount of food that most people, like their friends | 0. Never 1. Less than once a month 2. 1-3 times a month 3. Once a week | Any bingeing 0 = “no” 1-4 = “yes” DSM bingeing | Any binge eating Any bingeing AND Loss of control |

| | | | |
|---|--|--|---|
| or family, would consider to be very large in a short period of time. During the past year , how often did you go on an eating binge? | 4. More than once a week | 0-2 = “no” 3-4 = “yes” | |
| Do you ever feel like your eating is out of control, like you couldn’t stop eating even if you wanted to? | 0. No 1. Yes, sometimes 2. Yes, usually | Loss of control 0 = “no” 1-2 = “yes” | |
| Any disordered eating | | | |
| | | | Any disordered eating Any fasting OR Any purging OR Any binge-eating OR Any excessive exercise |
| DSM-5 frequency disordered eating | | | |
| | | DSM frequency purging DSM self-induced vomiting OR DSM laxative use OR DSM Other medication use DSM frequency binge-eating DSM bingeing AND Loss of control DSM frequency excessive exercise DSM exercise to lose weight AND Exercise interfered with life | DSM-5 frequency disordered eating DSM frequency fasting OR DSM frequency purging OR DSM frequency binge-eating OR DSM frequency excessive exercise |
| Self-harm for any reason | | | |
| Have you ever hurt yourself on purpose in any way (e.g. by taking an overdose of pills or by cutting yourself)? | 0. No 1. Yes | <i>Self-harm ever</i> 0 = “no” 1 = “yes” | Self-harm in the last year <i>Self-harm past year</i> (= 0 if self-harm ever = 0) |
| If yes , how many times have you done this in the last year? | 0. None 1. Once 2. 2-5 times 3. 6-10 times 4. More than 10 times | <i>Self-harm past year</i> 0 = “no” 1-4 = “yes” | |
| Non-suicidal self-injury | | | |
| Have you ever hurt yourself on purpose (e.g. by taking an overdose of pills or by cutting yourself), without intending to kill yourself? | 0. No 1. Yes | <i>NSSI ever</i> 0 = “no” 1 = “yes” | NSSI in the last year <i>NSSI past year</i> (= 0 if self-harm ever OR NSSI ever = 0) |

| | | | |
|---|---|--|---|
| <p>If yes, when was the last time you hurt yourself on purpose, without intending to kill yourself?</p> | <ol style="list-style-type: none"> 1. In the last week 2. More than a week ago but in the last year 3. More than a year ago | <p><i>NSSI past year</i> 3 = “no” 1-2 = “yes”</p> | |
| Suicide attempt | | | |
| <p>On any of the occasions you have hurt yourself on purpose, have you ever seriously wanted to kill yourself?</p> | <ol style="list-style-type: none"> 0. No 1. Yes | <p><i>Attempt to kill ever</i> 0 = “no” 1 = “yes”</p> | <p>Suicide attempt ever <i>Attempt to kill ever</i> OR <i>Reason: to die</i></p> |
| <p>In your lifetime, do any of the following reasons help to explain why you hurt yourself?</p> | <ol style="list-style-type: none"> a) I wanted to show how desperate I was feeling Y/N b) I wanted to die c) I wanted to punish myself d) I wanted to frighten someone e) I wanted to get relief from a terrible state of mind f) Some other reason | <p><i>Reason: to die</i> b 0 = “no” b 1 = “yes”</p> | |
| <p>If yes, when was the last time you hurt yourself on purpose and you seriously wanted to kill yourself?</p> | <ol style="list-style-type: none"> 1. In the last week 2. More than a week ago but in the last year 3. More than a year ago | <p><i>Suicide attempt past year</i> 3 = “no” 1-2 = “yes”</p> | <p>Suicide attempt in the last year <i>Suicide attempt past year</i> (= 0 if suicide attempt ever = 0)</p> |

Supplementary Table 3. Question wording and variable coding for pre-pandemic measure of socioeconomic disadvantage (young person not in education, employment or training)

| Question wording | | Possible responses | Final variable coding |
|-------------------|---|--------------------|--|
| Are you currently | | | |
| | In full-time paid work (30 hours or more a week) | Yes (1) No (0) | If all responses are No (0), then NEET variable is 1 (yes) |
| | In part-time paid work (less than 30 hours a week) | Yes (1) No (0) | |
| | In irregular or occasional work | Yes (1) No (0) | If any response is Yes (1), then NEET variable is 0 (No) |
| | Doing a modern apprenticeship or other government supported training/work-experience scheme | Yes (1) No (0) | |
| | In full-time education | Yes (1) No (0) | |
| | Self-employed | Yes (1) No (0) | |

Supplementary Table 4. Question wording and variable coding for pandemic-related experiences

| Variable | Questionnaire Wording | Response Options | Final variable coding |
|--|--|--|--|
| Living alone | Do you live with anybody? | No I live on my own Yes, I live with at least 1 person | If “No I live on my own” then <i>living alone</i> = Yes (1) |
| Keyworker | Are you a keyworker, or has your work been classified as critical to the COVID-19 response? | Yes No Don’t know | If “Yes” then <i>keyworker</i> = Yes (1), If “No” then <i>keyworker</i> = No (0) If “Don’t know” then <i>keyworker</i> = missing |
| Financial problems during the pandemic | Overall, how do you feel your current financial situation compares to how it was before the COVID-19 pandemic? | I’m much worse off I’m a little worse off I’m about the same I’m a little better off I’m much better off | If “I’m much worse off” or “I’m a little worse off” then <i>financial problems</i> = Yes (1) Any other response then <i>financial problems</i> = No (0) |
| Furloughed during the pandemic | Which of these would you say best describes your current situation now? | Employed and working the same number of hours (as pre-lockdown) Employed and working reduced number of hours Employed and working more hours than before Employed but on paid leave (including furlough) Employed and on unpaid leave Apprenticeship In unpaid/voluntary work Self-employed and currently working Self-employed but not currently working Unemployed Permanently sick or disabled Looking after home or family In education at school/college/university | If “Employed but on paid leave (including furlough)” then <i>furlough</i> = Yes (1) Any other response then <i>furlough</i> = No (0) |

Supplementary Table 5. Amount of missing data on exposures, outcomes and confounders

| Variable | n present | n missing | % missing |
|--|------------------|------------------|------------------|
| <i>Primary exposures</i> | | | |
| Any disordered eating | 2096 | 561 | 21.11% |
| Any self-harm | 2115 | 542 | 20.40% |
| Comorbid disordered eating and self-harm | 2089 | 568 | 21.38% |
| <i>Secondary exposures</i> | | | |
| Fasting | 2115 | 542 | 20.40% |
| Purging | 2112 | 545 | 20.51% |
| Binge-eating | 2116 | 541 | 20.36% |
| Excessive exercise | 2105 | 552 | 20.78% |
| DSM-5 frequency disordered eating | 2093 | 564 | 21.23% |
| Self-harm without suicidal intent | 2115 | 542 | 20.40% |
| Self-harm with suicidal intent | 2081 | 576 | 21.68% |
| <i>Outcomes</i> | | | |
| Depressive symptoms | 1914 | 743 | 27.96% |
| Anxiety symptoms | 1916 | 741 | 27.89% |
| Mental wellbeing | 1922 | 735 | 27.66% |
| <i>Confounders</i> | | | |
| Gender | 2657 | 0 | 0.00% |
| COVID1 questionnaire completion date | 2657 | 0 | 0.00% |
| Pre-pandemic NEET | 1986 | 671 | 25.25% |
| Pre-pandemic depressive symptoms | 1998 | 659 | 24.80% |
| Pre-pandemic anxiety symptoms | 1718 | 939 | 35.34% |
| Pre-pandemic mental wellbeing | 2014 | 643 | 24.20% |

NEET = Not in employment, education or training

Supplementary Table 6. Comparison of complete case and imputed analysis for main effects of disordered eating and self-harm on unstandardised pandemic mental health outcomes

| | | | Complete case sample 1 | | | Complete case sample 2 | | | Imputed data | | |
|------------------------------------|-------|---------|------------------------|-----------------------|-------|------------------------|----------------------|-------|--------------|----------------------|-------|

Analyses conducted using all available observed data for each model. Model A = unadjusted; Model B = adjusted for sex, COVID1 questionnaire completion date, pre-pandemic socioeconomic status; Model C = adjusted for sex, COVID1 questionnaire completion date, pre-pandemic socioeconomic status and pre-pandemic mental health and wellbeing symptoms.

Supplementary Table 8. Associations between disordered eating frequency exposures and mental health outcomes during the pandemic

| Exposure | Unadjusted Model A | | | Adjusted Model B | | | Fully adjusted Model C | | |
|---|--------------------|----------------------|-------|------------------|----------------------|-------|------------------------|----------------------|-------|
| | n | B (95% CI) | p | n | B (95% CI) | p | n | B (95% CI) | p |
| Outcome: Depressive symptoms | | | | | | | | | |
| Disordered eating less than once a week | 1585 | 2.54 (1.87, 3.20) | <.001 | 1360 | 2.43 (1.71, 3.15) | <.001 | 1341 | 1.17 (0.50, 1.83) | 0.001 |
| Disordered eating once a week or more | | 4.36 (3.42, 5.29) | <.001 | | 4.25 (3.21, 5.28) | <.001 | | 2.31 (1.35, 3.27) | <.001 |
| Outcome: Anxiety symptoms | | | | | | | | | |
| Disordered eating less than once a week | 1586 | 2.13 (1.52, 2.74) | <.001 | 1359 | 1.91 (1.27, 2.56) | <.001 | 1094 | 0.99 (0.33, 1.66) | 0.003 |
| Disordered eating once a week or more | | 3.35 (2.49, 4.21) | <.001 | | 3.32 (2.38, 4.25) | <.001 | | 1.97 (1.00, 2.95) | <.001 |
| Outcome: Mental wellbeing | | | | | | | | | |
| Disordered eating less than once a week | 1592 | -3.13 (-4.15, -2.12) | <.001 | 1364 | -3.25 (-4.35, -2.16) | <.001 | 1343 | -1.54 (-2.54, -0.54) | 0.002 |
| Disordered eating once a week or more | | -4.88 (-6.31, -3.45) | <.001 | | -4.87 (-6.45, -3.29) | <.001 | | -2.31 (-3.77, -0.85) | 0.002 |

Analyses conducted using all available observed data for each model. Reference category is no disordered eating (0).

Model A = unadjusted; Model B = adjusted for sex, COVID1 questionnaire completion date, pre-pandemic socioeconomic status; Model C = adjusted for sex, COVID1 questionnaire completion date, pre-pandemic socioeconomic status and pre-pandemic mental health and wellbeing symptoms.

Supplementary Table 9. Lifestyle changes during lockdown (n=2657)

| Since lockdown the participant has changed the amount: | Decrease | | Stayed the same | | Increase | |
|---|----------|-------|-----------------|-------|----------|-------|
| | n | % | n | % | n | % |
| they <i>sleep</i> | 628 | 23.64 | 1,152 | 43.36 | 877 | 33.01 |
| of physical activity/ <i>exercise</i> | 1,151 | 43.32 | 697 | 26.23 | 809 | 30.45 |
| of <i>alcohol</i> drunk | 397 | 14.94 | 1,362 | 51.26 | 898 | 33.80 |
| visiting <i>green space</i> | 1,207 | 45.43 | 692 | 26.04 | 758 | 28.53 |
| they <i>eat</i> | 241 | 9.07 | 1,319 | 49.64 | 1,097 | 41.29 |
| of time spent <i>talking</i> to family/friends outside their home | 982 | 36.96 | 524 | 19.72 | 1,151 | 43.32 |
| of time spent doing <i>hobbies</i> /things they enjoy | 478 | 17.99 | 891 | 33.53 | 1,288 | 48.48 |
| of practising <i>relaxation</i> /mindfulness/meditation | 136 | 5.12 | 2,021 | 76.06 | 500 | 18.82 |

Supplementary Table 10. Associations between disordered eating/self-harm exposures (age 25 years, YPD questionnaire) and lifestyle change moderators (COVID1 questionnaire)

| Exposure | Lifestyle change moderator | Decreased (ref = stayed same) | | Increased (ref = stayed same) | | |
|-------------------|----------------------------|-------------------------------|----------------|-------------------------------|----------------|----------|
| | | RRR | 95% CI | RRR | 95% CI | p |
| Disordered eating | Sleep | 2.055 | [1.630, 2.589] | 1.568 | [1.267, 1.939] | < 0.0001 |
| Disordered eating | Exercise | 1.214 | [0.974, 1.511] | 1.039 | [0.818, 1.320] | 0.1592 |
