Running title: Cannabis Vaper Preferences

Abstract

In 2019 an estimated 200 million people aged 15-64 used cannabis, making cannabis the most prevalent illicit substance worldwide. The last decade has seen a significant expansion in the cannabis vaporiser market, introducing cannabis vaporisation as a common administration method alongside smoking and ingestion. Despite reports of increased prevalence of cannabis vaporisation there has been little research into the use of these devices. To remedy the current dearth of data in this area this study utilised an anonymous online survey of individuals who self-reported past cannabis vaporisation. The respondents (N=557) were predominantly young (<35 years) and male. Most (91.4%) stated they had ever vaped dry herb cannabis, 59.1% reported vaporisation of cannabis oil or liquids, and 34.0% reported vaporisation of cannabis concentrates. This study identifies the types of vaporisation devices (including brands and models) employed by cannabis vapers, as well as the vaporisation temperatures and puff durations commonly used for dry herb, cannabis liquids and cannabis concentrates. To the best of our knowledge, this is the first time the usual operating temperatures of these vaporisation devices and user specific consumption patterns such as puff duration have been reported for cannabis vaping. This information will allow for more realistic experimental conditions in research settings.

Supplementary Material 1 - QUESTIONNAIRE

BLOCK 1 - Eligibility Questions

1. What is your current age?
 - a. <18
 - b. 18-24
 - c. 25-34
 - d. 35-44
 - e. 45-54
 - f. 55-64
 - g. >65

[If <18 respondents sent directly to the end of the survey]

2. What is your gender?
 - a. Male
 - b. Female
 - c. Non-binary
 - d. Prefer not to disclose
3. What country are you in? [TEXT ANSWER]
4. Is cannabis use legal in the state/country you are in?
 - a. No, it is illegal
 - b. It is legal for medicinal use only
 - c. It is legal for medicinal and recreational use
 - d. Unsure
5. Have you ever used cannabis (marijuana) in any form? This includes smoking, eating or vaping of cannabis flower, hash, concentrates, oils, THC or CBD.
 - a. Yes
 - b. No
6. *[If yes to Q5 include this question]* How long have you been using cannabis for? This includes smoking, eating or vaping cannabis in any form.
 - a. less than 12 months
 - b. 12 months to 5 years
 - c. 5 - 10 years
 - d. more than 10 years
7. Have you ever vaporised cannabis (marijuana) in any form? This includes vaporising cannabis flower, hash, concentrates, oils, THC or CBD in an e-cigarette style device, vape-pen, tabletop vaporiser or dab-rig.
 - a. Yes
 - b. No

[If no to Q7 respondents sent directly to the end of the survey]

8. *[If yes to Q7 include this question]* How long have you been vaping cannabis for? This question is specifically referring to vaporising cannabis and excludes eating and smoking.
- less than 12 months
 - 12 months to 5 years
 - 5 - 10 years
 - more than 10 years

BLOCK 2 - Cannabis Usage General Questions

9. When you smoke cannabis you do this primarily:
- For medicinal purposes
 - For recreational purposes
 - For both medicinal and recreational purposes
 - I have never smoked cannabis
10. When you ingest (eat/drink) cannabis you do this primarily:
- For medicinal purposes
 - For recreational purposes
 - For both medicinal and recreational purposes
 - I have never ingested cannabis
11. When you vaporise cannabis in any form (this includes vaporising cannabis flower, hash, concentrates, oils, THC, CBD or flavoured cannabis-containing e-liquids) in an e-cigarette style device, vape-pen, tabletop vaporiser or dab-rig you do this primarily:
- For medicinal purposes
 - For recreational purposes
 - For both medicinal and recreational purposes

BLOCK 3 - Dry Herb Cannabis

12. Have you ever vaporised dry herb cannabis (flower/plant material) in any device? This question is specifically referring to vaporising cannabis plant material only and excludes vaporisation of cannabis concentrates, oils or liquids.

- Yes
- No

[If Yes go to Questions 13-21; if No Go to Question 22]

13. What type of device/s have you used to vaporise dry herb cannabis (flower/plant material)?

You may select more than one answer.

- a. A table-top (desktop) vaporiser
- b. A portable (handheld) vaporiser
- c. Other (type response in the textbox below) [TEXT]

14. [If select table-top option in Q13 include this question] How often do you vaporise dry herb cannabis in a table-top vaporiser?

- a. Most days
- b. Approximately once a week
- c. Approximately once a month
- d. A few times a year
- e. Once or twice ever

15. [If select portable option in Q13 include this question] How often do you vaporise dry herb cannabis in a portable vaporiser?

- a. Most days
- b. Approximately once a week
- c. Approximately once a month
- d. A few times a year
- e. Once or twice ever

16. What brand of vaporiser do you use to vaporise dry herb cannabis? You can provide details on more than one device if you use multiple. [TEXT ANSWER]

17. Approximately how long is the duration of each puff when you inhale vaporised dry herb cannabis (in seconds)? [SLIDE ANSWER – 1 second, 2 second etc up to >10 seconds]

18. At approximately what temperature do you vaporise your cannabis flower/plant material? Please provide your answer as a numerical value and also select the appropriate unit. Temperature can be provided as a range. If unsure leave blank. [TEXT ANSWER]

	Value	Temperature in degrees Celsius	Temperature in degrees Fahrenheit
Approximate temperature used to vaporise dry herb cannabis	<input type="text"/>	<input type="radio"/>	<input type="radio"/>

19. Approximately how much dry herb cannabis do you vaporise per month? Please provide your answer as an approximate mass, this should only include how much you vaporise and not the amount consumed using other methods (smoking or ingesting). Please also select the appropriate unit. If unsure leave blank.

	Value	Mass in grams	Mass in ounces
Approximate mass of dry herb cannabis vaped per month	<input type="text"/>	<input type="radio"/>	<input type="radio"/>

20. Once you have finished vaporising your dry herb cannabis do you use the remaining herb material (or AVB) for anything else?

- a. Yes
- b. No

21. *[If Yes to Q20 include this question]* What do you do with the left over dry herb cannabis material after it has been vaporised? [TEXT ANSWER]

BLOCK 4 - Cannabis Oils/Liquids

22. Have you ever vaporised cannabis oils or liquids, including cannabis/THC/CBD containing e-liquids in any device including e-cigarettes, vape-pens or dab-rigs? This question is specifically referring to cannabis containing e-liquids, cannabis concentrates which have been dissolved or diluted in a carrier fluid, or cannabis dry herb material which has been extracted directly into a carrier fluid for vaporisation. This excludes the direct use of the dry herb material or undiluted cannabis concentrates.

- a. Yes
- b. No

If Yes go to Questions 23-34; if No Go to Question 35

23. What type of device/s have you used to vaporise cannabis oils or liquids? You may select more than one answer.

- a. A table-top (desktop) vaporiser
- c. A portable (handheld) vaporiser (e-cigarette or vape pen)
- d. A dab-rig
- e. Other (type response in the textbox below) [TEXT]

24. *[If select table-top option in Q23 include this question]* How often do you vaporise cannabis oils or liquids in a table-top vaporiser?
- Most days
 - Approximately once a week
 - Approximately once a month
 - A few times a year
 - Once or twice ever
25. *[If select portable option in Q23 include this question]* How often do you vaporise cannabis oils or liquids in a portable vaporiser?
- Most days
 - Approximately once a week
 - Approximately once a month
 - A few times a year
 - Once or twice ever
26. *[If select dab-rig option in Q23 include this question]* How often do you vaporise cannabis oils or liquids in a dab-rig?
- Most days
 - Approximately once a week
 - Approximately once a month
 - A few times a year
 - Once or twice ever
27. What brand of vaporiser do you use to vaporise cannabis oils or liquids? You can provide details on more than one device if you use multiple [TEXT ANSWER]
28. Which of the following cannabis oils or liquids have you vaporised? You can select more than one answer.
- A purchased cannabis oil (cannabis/terpene flavour)
 - A cannabis oil made from concentrates (dissolved in terps or thinner)
 - A cannabis/THC/CBD containing e-liquid (PG or VG based) – unflavoured
 - A cannabis/THC/CBD containing e-liquid (PG or VG based) – flavoured
 - Other (type response in the textbox below) [TEXT]
29. Approximately how long is the duration of each puff when you inhale vaporised cannabis oils or liquids (in seconds)? [SLIDE ANSWER – 1 second, 2 second etc up to >10 seconds]
30. At approximately what temperature do you vaporise your cannabis oils or liquids? Please provide your answer as a numerical value and also select the appropriate unit. Temperature can be provided as a range. If unsure leave blank.

	Value	Temperature in degrees Celsius	Temperature in degrees Fahrenheit
Approximate temperature used to vaporise cannabis oils or liquids	<input type="text"/>	<input type="radio"/>	<input type="radio"/>

31. Approximately how much cannabis oil or liquid do you vaporise per month? Please provide your answer as an approximate volume, this should only include how much you vaporise and not the amount consumed using other methods (smoking or ingesting). Please also select the appropriate unit. If unsure leave blank. [TEXT ANSWER]

	Value	Volume in millilitres (mls)	Volume in fluid ounces
Approximate volume of cannabis oil or liquid vaped per month	<input type="text"/>	<input type="radio"/>	<input type="radio"/>

32. When you vaporise cannabis containing oils or liquids they are usually in what type of container?

- A pod style container (for example JUUL-style pod which pushes into the vaporiser)
- A 510 cartridge (long, thin cartridge which screws into the vaporiser)
- An open tank style device which you fill yourself
- Other (type response in the textbox below) [TEXT]

33. Where do you obtain your cannabis oils or liquids? You can select more than one option.

- From a friend
- From a dealer
- From a retail store
- From the internet (not dark-web)
- From the dark-web
- I make my own cannabis oils or liquids
- Other (type response in the textbox below) [TEXT]

34. [If select F in Q33 include this question] If you have made your own cannabis oils/liquids before which methods have you used? You can select more than one option.

- Dissolving cannabis concentrates in 'terps'
- Dissolving cannabis concentrates in other e-liquids (PG or VG based)
- Dissolving cannabis concentrates in 'thinners' or 'liquidisers'
- Extracting dry herb cannabis directly into 'terps'
- Extracting dry herb cannabis directly into other e-liquids (PG or VG based)
- Other (type response in the textbox below) [TEXT]

BLOCK 5 - Cannabis Concentrates

35. Have you ever vaporised cannabis concentrates (shatter/wax/budder/other) in any device including e-cigarettes, vape-pens or dab-rigs? This question is specifically referring to cannabis concentrates created by extraction of cannabis with solvents and/or heat and excludes vaporisation of the dry herb material or cannabis containing e-liquids or oils.

- a. Yes
- b. No

If Yes go to Questions 36-45; if No Go to Question 46

36. What type of device/s have you used to vaporise cannabis concentrates (shatter/wax/budder/other)? You may select more than one answer.
- a. A table-top (desktop) vaporiser
 - b. A portable (handheld) vaporiser (e-cigarette or vape pen)
 - c. A dab-rig
 - d. Other (type response in the textbox below) [TEXT]
37. *[If select table-top option in Q36 include this question]* How often do you vaporise cannabis concentrates in a table-top vaporiser?
- a. Most days
 - b. Approximately once a week
 - c. Approximately once a month
 - d. A few times a year
 - e. Once or twice ever

38. [If select portable option in Q36 include this question] How often do you vaporise cannabis concentrates in a portable vaporiser?

- a. Most days
- b. Approximately once a week
- c. Approximately once a month
- d. A few times a year
- e. Once or twice ever

39. [If select dab-rig option in Q36 include this question] How often do you vaporise cannabis concentrates in a dab-rig?

- a. Most days
- b. Approximately once a week
- c. Approximately once a month
- d. A few times a year
- e. Once or twice ever

40. What brand of vaporiser do you use to vaporise cannabis concentrates? You can provide details on more than one device if you use multiple [TEXT ANSWER]

41. Approximately how long is the duration of each puff when you inhale vaporised cannabis concentrates (in seconds)? [SLIDE ANSWER – 1 second, 2 second etc up to >10 seconds]

42. At approximately what temperature do you vaporise your cannabis concentrates? Please provide your answer as a numerical value and also select the appropriate unit. Temperature can be provided as a range. If unsure leave blank. [TEXT ANSWER]

	Value	Temperature in degrees Celsius	Temperature in degrees Fahrenheit
Approximate temperature used to vaporise cannabis concentrates	<input type="text"/>	<input type="radio"/>	<input type="radio"/>

43. Approximately how much cannabis concentrate do you vaporise per month? Please provide your answer as an approximate mass, this should only include how much you vaporise and not the amount consumed using other methods (smoking or ingesting). Please also select the appropriate unit. If unsure leave blank. [TEXT ANSWER]

	Value	Mass in grams	Mass in ounces
Approximate mass of cannabis concentrate vaped per month	<input type="text"/>	<input type="radio"/>	<input type="radio"/>

44. Where do you obtain your cannabis concentrates? You can select more than one option.

- a. From a friend
- b. From a dealer
- c. From a retail store
- d. From the internet (not dark-web)

- e. From the dark-web
- f. I make my own cannabis concentrates
- g. Other (type response in the textbox below) [TEXT]

45. [If select F in Q44 include this question] If you have made your own concentrates before which methods/solvents have you used? You can select multiple options.

- a. Rosin technique (solventless, hot press)
- b. Solvent extraction with butane
- c. Solvent extraction with ethanol
- d. Solvent extraction with isopropanol
- e. Extraction with carbon dioxide (CO₂)
- f. Other (type response in the textbox below) [TEXT]

46. [If select F in Q44 include this question] If you have made your own concentrates before which is your preferred/favourite method?

- a. Rosin technique (solventless, hot press)
- b. Solvent extraction with butane
- c. Solvent extraction with ethanol
- d. Solvent extraction with isopropanol
- e. Extraction with carbon dioxide (CO₂)
- f. Other (type response in the textbox below) [TEXT]

BLOCK 6 - Vaping Preferences

47. If you consume cannabis in multiple ways which of the following is your preferred method?

- a. Smoking
- b. Ingesting
- c. Vaporising
- d. I only vaporise cannabis

48. If you vaporise cannabis in multiple ways which of the following is your preferred method? Please select BOTH your preferred type of cannabis AND your preferred device type or select 'no preferred method'.

	Type of Cannabis			Device Type			No preferred method
	Dry Herb	Cannabis Oil or Liquid	Cannabis Concentrate	Table-top Vaporiser	Portable (hand-held) Vaporiser	Dab-Rig	
Preferred method of cannabis vaporisation	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

49. Why have you decided to vape cannabis products (select all that apply)?

- a. In my opinion it is a healthier alternative to smoking cannabis
- b. It was convenient as I was already a vaper of non-cannabis products
- c. For a better taste experience (more flavour choices)
- d. As it creates a better high for me

- e. To replace smoking cannabis in a parallel effort to quit cigarette smoking
- f. Because I am a non-smoker
- g. This was suggested to me for use of medicinal cannabis
- h. Because it is more discreet (stealth vaping)
- i. Other (type response in the textbox below) [TEXT]

50. Has vaping cannabis replaced for you one (or more) other mode of using cannabis (smoking, ingesting)?

- a. Yes, it has replaced all other methods (smoking, ingestion)
- b. Yes, it has replace one other method (smoking or ingestion)
- c. No, vaping has not replaced any other method

51. Have you ever heard of synthetic cannabinoids (sometime referred to a legal highs)?

- a. Yes
- b. No

52. *[If YES to Q51 get this question]* Have you ever used synthetic cannabinoids? You may select more than one.

- a. Yes, by vaping in any device
- b. Yes, by ingestion
- c. Yes, by smoking
- d. No

Supplementary Material 2 – DATA ANALYSIS

Table SM1: Chi square contributors for administration method vs reason for use.
