

Supplementary Material: Differences in PRCCs between proportions of visitor clusters A and B effectively vaccinated (v_A and v_B) and different testing regimes.

Martin David Grunnill

March 12, 2023

Table 1: Differences in PRCCs between different testing regimes and proportions of visitor clusters A effectively vaccinated (v_A) under the "No Testing" test regime.

Test Regime	Output	Differences in PCC	z-score	p_value (one tailed)	p_value (two tailed)
Pre-travel RTPCR	peak hospitalised	0.285485156	23.29013569	2.79E-120	5.58E-120
Pre-travel RTPCR	peak infected	0.129090405	10.53131131	3.10E-26	6.20E-26
Pre-travel RTPCR	total hospitalisations	0.29415326	23.99728747	1.48E-127	2.97E-127
Pre-travel RTPCR	total infections	0.133077878	10.85661291	9.28E-28	1.86E-27
