

Appendix 5. BeLOVE contributors

The BeLOVE study group, the BeLOVE assembly of principal investigators, combined with the BeLOVE core-investigators. Their members can be found in the table below and will be kept up to date on our website. www.bihealth.org/BeLOVE

BeLOVE Assembly of Principal Investigators

Prof. Dr. med. Kai-Uwe Eckardt* (PI Acute Kidney Injury)	Director, Dept. Nephrology Charité - Universitätsmedizin Berlin
Prof. Dr. Frank Edelmann (CI)	Dept. Cardiology, Charité - Universitätsmedizin Berlin
Prof. Dr. Matthias Endres* (PI Stroke)	Director, Dept. Neurology and Center for Stroke Research Berlin, Charité - Universitätsmedizin Berlin
Prof. Dr. Holger Gerhardt* (PI Induced Pluripotent Stem Cell)	Head of Group Integrative Vascular Biology Cardiovascular Diseases Max-Delbrück-Center for Molecular Medicine (MDC)
Prof. Dr. Norbert Hübner (PI Genetics and Genomics)	Head of the Group Genetics and Genomics of Cardiovascular Diseases Max-Delbrück-Center for Molecular Medicine (MDC)
Prof. Dr. Ulf Landmesser* (PI Acute Coronary Syndrome)	Director, Dept. Cardiology CBF, Charité - Universitätsmedizin Berlin
PD Dr. David Leistner (CI)	Dept. Cardiology CBF Charité - Universitätsmedizin Berlin
Univ.-Prof. Dr. med. Knut Mai (CI)	Dept. Endocrinology Charité - Universitätsmedizin Berlin
Prof. Dr. Dominik N. Müller* (PI Metabolomics and Microbiome)	Experimental and Clinical Research Center (ECRC) & Guest-Group Leader, Max-Delbrück-Center for Molecular Medicine
Prof. Dr. Burkert Pieske* (PI Acute Heart Failure)	Director, Dept. Cardiology CVK Charité - Universitätsmedizin Berlin and German Heart Center Berlin (DHZB)
Prof. Dr. Tobias Pischon* (PI Epidemiology)	Group Leader, Molecular Epidemiology Research Group, Max-Delbrück-Center for Molecular Medicine
Prof. Dr. Geraldine Rauch (PI Biostatistics)	Head of Institute, Institute of Biometry and Clinical Epidemiology Charité - Universitätsmedizin Berlin and Berlin Institute of Health

Dr. Sein Schmidt	Head of BIH Clinical Research Unit and Clinical Trial Unit, Berlin Institute of Health
Prof. Dr. Kai Schmidt-Ott (CI)	Group Leader, Molecular and Translational Kidney Research, Max-Delbrück-Center for Molecular Medicine and Charité - Universitätsmedizin Berlin
Univ.-Prof. Dr. Jeanette Schulz-Menger (PI Magnetic Resonance Imaging)	Group leader, Cardiovascular MRI and Head Research Outpatient Department Cardiology, Charité - Universitätsmedizin Berlin and Helios Clinics
Dr. Bob Siegerink (CI)	Center for Stroke Research Berlin Charité - Universitätsmedizin Berlin
Prof. Dr. Joachim Spranger* (PI Diabetes mellitus Typ 2)	Director, Dept. Endocrinology Charité - Universitätsmedizin Berlin
Dr. Joachim E. Weber	Local Coordinator BIH Clinical Research Unit at Charité Campus Benjamin Franklin, Berlin Institute of Health
* also member of the Board of Directors Committee	

BeLOVE INVESTIGATORS

Dr. Michael Ahmadi	Dept. Neurology at Charité - Universitätsmedizin Berlin and Clinical Research Unit at Berlin Institute of Health
Prof. Dr. Heiko Becher	Director Institute of Medical Biometry and Epidemiology at Center for Experimental Medicine Universitätsklinikum Hamburg Eppendorf and Guest professor at Berlin Institute of Health
Dr. Dieter Beule	Head of BIH Bioinformatik Core Unit, Berlin Institute of Health
Dr. Alexander U. Brandt	Head of the Neuro Diagnostic Laboratory, NeuroCure Clinical Research Center Charité – Universitätsmedizin Berlin
Dr. Sebastian Diecke	Head of BIH Core Facility Stem Cells, Berlin Institute of Health (MDC)
Prof. Dr. Roland Eils	Founding Director of the BIH Digital Health Center, Berlin Institute of Health
Prof. Dr. Jochen Fiebach	Head of Research Group CSB Neuroradiology, Center for Stroke Research Berlin, Charité - Universitätsmedizin Berlin
Dr. Sofia Forslund	Group Leader Host-microbiome factors in cardiovascular disease, Max-Delbrück-Center for Molecular Medicine (MDC)

Prof. Dr. John-Dylan Haynes	Director of Berlin Center for Advanced Neuroimaging (BCAN), Charité - Universitätsmedizin Berlin and Bernstein Center for Computational Neuroscience
Prof. Dr. Michael Hummel	Head of BIH Core Facility Biobank, Berlin Institute of Health
Prof. Dr. Sebastian Kelle	Director MRI-CORE-LAB, German Heart Center Berlin
Dr. Jennifer Kirwan	Head of BIH Metabolomics Platform, Berlin Institute of Health
Prof. Dr. Fabian Knebel	Dept. Cardiology, Charité - Universitätsmedizin Berlin
Dr. Elisabeth Piekse-Kraigher	Managing Director Echo Core Lab, Dept. Cardiology, Charité - Universitätsmedizin Berlin
Prof. Dr. Andreas Meisel	Dept. Neurology and Center for Stroke Research Berlin, Charité - Universitätsmedizin Berlin
PD Dr. Jürgen Machann	Section for Experimental Radiology, University Hospital Tübingen for the Eberhard Karls University Tübingen
Dr. Philipp Mertins	Head of BIH Core Facility Proteomics, Berlin Institute of Health
Prof. Dr. Friedemann Paul	Head of the Clinical Neuroimmunology Research Group, NeuroCure Clinical Research Center Charité – Universitätsmedizin Berlin
Prof. Dr. Vera Regitz-Zagrosek	Director Institute of Gender in Medicine, Charité - Universitätsmedizin Berlin
Dr. Sascha Sauer	Head of BIH Core Facility Genomics, Campus Berlin Buch, Berlin Institute of Health
PD Dr. Jan Friedrich Scheitz	Dept. Neurology and Center for Stroke Research Berlin, Charité - Universitätsmedizin Berlin
Dr. Harald Stachelscheid	Head of BIH Core Facility Stem Cells, Berlin Institute of Health (Charité)
Dr. Kersten Villringer	CSB Neuroradiology, Center for Stroke Research Berlin, Charité - Universitätsmedizin Berlin
Prof. Dr. Hans-Dieter Volk	Director of the BIH Center for Regenerative Therapies (BCRT), Berlin Institute of Health and Head of Institute of Medical Immunology, Charité - Universitätsmedizin Berlin
Prof. Dr. Oliver Zeitz	Clinic for Ophthalmology (site management), Charité Campus Benjamin Franklin, Charité – Universitätsmedizin Berlin

Dr. Tomasz Zemoitel	Head of BIH Core Facility Genomics, Berlin Institute of Health
Prof. Dr. Dr. h. c. Torsten Zuberbier	Head of Departement of Dermatology and Allergy, Charité - Universitätsmedizin Berlin

BeLOVE is the work of many. The authors would like to acknowledge the work of the following individuals for their respective tasks within the BeLOVE organisation.

Recruitment:

- ACS: Arash Haghikia, Andrea Heuberger, Anne Sophie Schatz, all Charité - Universitätsmedizin Berlin
- AHF: Felix Lucas Bähr, Anna Bobenko, Lucie Kretzler, Johannes Petutschnigg, Rafaela Pinto, Cristina Rozados da Conceicao, Leonard Schleußner, Veronika Zach, all Charité - Universitätsmedizin Berlin
- AKI: Nicole Bethge, Dymtro Khadzhynov, Lovis Kling, Katharina Steininger, Claas Jasper Steffen, all Charité - Universitätsmedizin Berlin
- Stroke: Jakob Dörrfuß, Robert Fleischmann, Julia Nichtweiß, Christian Nolte, Maria Rönnefarth, all Charité - Universitätsmedizin Berlin
- T2DM: Anne-Marie Decker, Linna Li, Victor Petzinka, Reiner Jumpertz-von Schwartzberg, Nina Meyer, Max Sander, all Charité - Universitätsmedizin Berlin

Epidemiology:

- Prof Dr Tobias Kurth, director of the institute of public health, Charité - Universitätsmedizin Berlin
- Prof. Dr. Heiko Becher, Director Institute of Medical Biometry and Epidemiology at Center for Experimental Medicine Universitätsklinikum Hamburg Eppendorf and Guest professor at Berlin Institute of Health

Nutritional Assessment Lab and Metabolism

- Nicole Stobäus, Berlin Institute of Health

Physical Function and Movement Analysis Lab

- Dr. Verena Schwachmayer, Berlin Institute of Health

Cognition & higher Brain Functions Lab

- Dr. Nadine Külzow, Berlin Institute of Health

German PROMIS® National Center

- Dr. Verena Benz, Berlin Institute of Health

Somatosensory and Pain Lab & EEG

- Tayfun Kilic, Berlin Institute of Health

Echocardiography:

- Prof. Dr. Fabian Knebel, Dept. Cardiology, Charité - Universitätsmedizin Berlin
- Dr. Elisabeth Pieske-Kraigher, Managing Director Echo Core Lab, Dept. Cardiology, Charité - Universitätsmedizin Berlin

MRI:

- Prof. Dr. Jochen Fiebach, Head of Research Group CSB Neuroradiology, Center for Stroke Research Berlin, Charité - Universitätsmedizin Berlin
- Prof. Dr. John-Dylan Haynes, Director of Berlin Center for Advanced Neuroimaging (BCAN), Charité - Universitätsmedizin Berlin and Bernstein Center for Computational Neuroscience
- Prof. Dr. Sebastian Kelle, Director MRI-CORE-LAB, German Heart Center Berlin
- PD Dr. Jürgen Machann, Section for Experimental Radiology, University Hospital Tübingen for the Eberhard Karls University Tübingen
- Kersten Villringer, Research Group CSB Neuroradiology, Center for Stroke Research Berlin, Charité - Universitätsmedizin Berlin
- Edyta Blaszczyk, Research Group Cardiovascular MRI, Experimental and Clinical Research Center (ECRC)

Genetics and Genomics:

- Dr. Sascha Sauer, Head of BIH Core Facility Genomics, Campus Berlin Buch, Berlin Institute of Health
- Dr. Tomasz Zemoitel, Head of BIH Core Facility Genomics, Berlin Institute of Health
- Dr. Christoph Lippert, Hasso-Plattner institute, Potsdam Germany

Proteomics & Metabolomics:

- Dr. Philipp Mertins, Head of BIH Core Facility Proteomics, Berlin Institute of Health
- Dr. Jennifer Kirwan, Head of BIH Metabolomics Platform, Berlin Institute of Health

Immunological Phenotyping:

- Prof. Dr. Hans-Dieter Volk, Director of the BIH Center for Regenerative Therapies (BCRT)
- Chantip Dang Heine, Berlin Institute of Health
- Britta Siegmund, Medical Director of the Medical Department, Division of Gastroenterology, Infectiology and Rheumatology, Charité - Universitätsmedizin Berlin

Induced Pluripotent Stem Cells :

- Dr. Sebastian Diecke, Head of BIH Core Facility Stem Cells, Berlin Institute of Health (MDC)
- Dr. Harald Stachelscheid, Head of BIH Core Facility Stem Cells, Berlin Institute of Health (Charité)

Sex & Gender

- Prof. Dr. Vera Regitz-Zagrosek, Director Institute of Gender in Medicine, Charité - Universitätsmedizin Berlin

Biobanking:

- Prof. Dr. Michael Hummel, Head of BIH Core Facility Biobank, Berlin Institute of Health

Bioinformatics:

- Dr. Dieter Beule, Head of BIH Bioinformatik Core Unit, Berlin Institute of Health

Biostatistics

- Sophie Piper, Oliver Schweizerhof, Yinan Wu, all Berlin Institute of Health

Eye Assessments:

- Prof. Dr. Friedemann Paul, Head of the Clinical Neuroimmunology Research Group, NeuroCure Clinical Research Center Charité – Universitätsmedizin Berlin
- Dr. Alexander U. Brandt, Head of the Neuro Diagnostic Laboratory, NeuroCure Clinical Research Center Charité – Universitätsmedizin Berlin
- Prof. Dr. Antonia Jousen, Medical Director Department of Ophthalmology
- Prof. Dr. Oliver Zeitz, Clinic for Ophthalmology (site management), Charité Campus Benjamin Franklin, Charité – Universitätsmedizin Berlin

Contributing scientist

- PD Dr. Jan Friedrich Scheitz, Dept. Neurology and Center for Stroke Research Berlin, Charité - Universitätsmedizin Berlin
- Dr. Sofia Forslund, Group Leader Host-microbiome factors in cardiovascular disease, Max-Delbrück-Center for Molecular Medicine (MDC)
- Prof. Dr. Roland Eils, Founding Director of the BIH Digital Health Center, Berlin Institute of Health
- Prof. Dr. Dr. h. c. Torsten Zuberbier, Head of Department of Dermatology and Allergy, Charité - Universitätsmedizin Berlin
- Prof. Dr. Andreas Meisel, Dept. Neurology and Center for Stroke Research Berlin, Charité - Universitätsmedizin Berlin

Furthermore, the BeLOVE study group like to thank the BeLOVE scientific advisory Board for their critical role during the design and pilot phase of the BeLOVE study.

We would like to express special thanks at the funding organizations to the Members of the Executive Board at the Berlin Institute of Health, for their financial, operational and infrastructural support in the establishment of this interdisciplinary cohort: Axel Radlach Pries, Karl Max Einhäupl, Rolf Zettl (formal member) and Martin Lohse (formal member). In addition, special thanks to Kati Jegzentsis, who provided central project support and coordination in the development phase of the BeLOVE cohort.
