

Table 2. Study Characteristics of primary reports: SARS-CoV-2 and the Role of Orofecal Transmission: (n=51)

Source	Country	Setting	Population/environment	Patient numbers	Fecal samples positive (viable samples in brackets)
Ahmed 2020	Australia	Sewage	Wastewater	N/A	Sewage
Cahill 2020	Global	Sewage	Wastewater	N/A	Sewage
Cai 2020	China	Children's Hospital	Children samples (5/6 positive)	10	5/6
Chan 2020	China	Household	Family members	6	0/6
Chavarria-Miro 2020	Spain	Sewage	Wastewater	N/A	Sewage
Chen C 2020	China	Hospital	121 adults, 22 children	133	22/133
Chen W 2020	China	Hospital	Adult patients with pneumonia	57	11/28
Chen Y 2020	China	Hospital	Hospitalised adult patients	42	28/42
Cheung 2020	Hong Kong	Public	Cohort and systematic review	52	9/52
COVID Ix Team	USA	Hospital and Community	Patients in six US states	12	7/10
Ding Z 2020	China	Infectious diseases hospital	Surface samples	N/A	Toilet Samples
Han C 2020	China	Hospital	Patients diagnosed with low severity Covid-19	206	12/22
Holshue 2020	USA	Hospital	A case report	1	1/1
Jeong 2020	Korea	Hospital	Specimens from 5 patients positive by qPCR	5	5/5* (1)
Kim J-M 2020	South Korea	Hospital	Hospitalised adult patients	74	8/74
Lamers 2020	The Netherlands	Laboratory	Enterocyte lineage cells in a human intestinal organoid model	0	Lab
La Rosa 2020	Global	Sewage	Water environments	N/A	Sewage
La Rosa 2020a	Italy	Sewage	Water environments	N/A	Sewage
Lescure 2020	France	Hospital	Case series of hospitalised adults patients	5	2/5
Ling 2020	China	Hospital	66 recovered patients	66	11/28
Lo 2020	Macau, China	Hospital	Hospitalised adult patients	10	10/10
Medema 2020	The Netherlands	Sewage	Public, cities and airport	N/A	Sewage
Ong 2020	Singapore	Hospital	Sampling in the physical areas around patients	3	Sewage toilet samples

Nicastri 2020	Italy	Hospital	Community	1	1/1
Pan 2020	China	Hospital	Adult patients	17	9/17
Peng 2020	China	Hospital	Adult patients	9	2/9
Qian 2020	China	Hospital	A case report of a patient admitted	1	1/1
Senapati 2020	India	Hospital	Adult patients	12	12/12
Shutler 2020	32 countries	Waterborne	Fecal contaminated water	N/A	Sewage
Tan 2020	Vietnam	Hospital	Adult patient	1	1/1
Tang 2020	China	Community	Asymptomatic child	1	1/1
Wang J 2020b	China	Hospital	Surfaces and sewage samples	N/A	Sewage
Wang W 2020	China	Hospital	Patients in three hospitals	205	1/6 * (1)
Wang XW 2020	China	Sewage	Fecal contaminated water	N/A	Sewage
Wang X 2020b	China	Hospital	Case reports on readmitted adults	3	3/3
Wölfel 2020	Germany	Hospital	Adult patients	9	9/9
Wu Y 2020	China	Hospital	Adult patients	74	41/74
Wurtzer 2020	France	Community	Wastewater	N/A	Sewage
Xiao F, Tang M 2020	China	Hospital	Children and adult	71	39/73* (1)
Xiao F, Sun J 2020b	China	Hospital	Adult patients	28	12/28* (2)
Xing Y 2020	China	Paediatric Hospital	Children	3	3/3
Xu Y 2020	China	Hospital	Children	10	8/10
Yoa H 2020	China	Hospital	Children and adult	11	3/3*(3)
Young 2020	Singapore	Hospital	Adult patients	18	4/8
Yuan 2020	China	Hospital	Children	78	37/78
Zang 2020	USA	Laboratory	Human enterocytes and fecal samples	10	10/10
Zhang J 2020	China	Hospital	Patients with Covid-19 pneumonia.	14	14/14
Zhang T 2020	China	Public Hospital	Children post-discharge	3	3/3
Zhang W 2020	China	Pulmonary Hospital	Adults patients	15	4/15
Zhang Y 2020	China	Unclear	Adult case report	1	1* (1)
Zhou J 2020		Laboratory	Human intestinal organoids	1	Lab

*Six studies ([Jeong](#), [Wang W](#), [Xiao F, Tang M](#), [Xiao F, Sun J](#), [Yoa H 2020](#) and [Zhang Y 2020](#)) report isolating the virus.
