

Supplementary materials. Self-reported reasons for not adhering to test, trace and isolate behaviours.

Self-isolation (n=1939*†)

Self-reported reasons for having left home since having developed symptoms (participants could select multiple response options)	%
To go to the shops, for groceries/pharmacy	18.2
My symptoms got better	15.6
For a medical need (other than coronavirus)	14.9
To go to the shops, for things other than groceries/pharmacy	14.7
My symptoms did not persist / were temporary*	14.5
My symptoms were only mild	13.7
To go for a walk or some other exercise	13.5
I don't think it is necessary for me to stay at home	13.2
To help or provide care for a vulnerable person	12.6
To go out to work	11.3
I was too depressed or anxious†	11.3
My symptoms got worse	9.8
I was too lonely†	9.8
To meet up with friends and/or family	9.5
I was too bored†	9.0
I have not left the home at all (single code)	18.2

*Item added on 18 May 2020 (wave 18); baseline n=1314.

†These items were added on 6 July 2020 (wave 24); baseline n=742)

Requesting an antigen test (n=769*)

Self-reported reasons for not requesting a test to confirm whether you had coronavirus (participants could select multiple response options)	%
I didn't think my symptoms were due to coronavirus	20.0
My symptoms improved	16.1
My symptoms were only mild	16.0
I didn't think I was eligible to get a test	14.6
I hadn't been in contact with anyone who had coronavirus recently	14.6
I didn't want to use a test that could have gone to someone else who needed it more	14.4
I was worried what friends or family would think about me if I tested positive*	13.8
I didn't know how to request a test	13.5
I thought I only needed to self-isolate (not leaving the home at all)	12.2
I didn't want to know the results of a test	10.3
I was worried about how colleagues/ my employer would react if I tested positive*	9.7
I was sure I had coronavirus, so I didn't see a reason to take a test	9.4
I thought the test would be uncomfortable or painful	9.2
I have already had coronavirus, so didn't see a reason to take a test	9.1
I didn't think the test would be accurate	8.1
I didn't know what the test involved	7.0

*These items were added on 29 June 2020 (wave 23); baseline n=421.

Intention to share details of close contacts (n=15,022)

Self-reported reasons that would stop you passing details of your recent close contacts to the NHS (participants could select multiple response options)	%
I don't know if the data will be secure and confidential	18.8
I don't know what will happen to the data	17.2
I don't think the contact tracing system is accurate and reliable	14.2
It would cause stress to my contacts	9.0
It would cause inconvenience to my contacts	6.8
My contacts would be angry	5.4
I don't want to be responsible of other people being told to self-isolate	5.3
It would cause loss of income to my contacts	5.2
I am worried about being found out by my contacts	4.3
None of the above, I would share details of recent close contacts with the NHS if asked to do so (single code)	58.6

Quarantining after being alerted (n=405)

Self-reported reasons for not quarantining in the 14 days after being contacted by the NHS contact tracing service (participants could select multiple response options)	%
I couldn't stay away from other people in my household, so didn't think it was necessary for me to stay away from people outside my household	14.3
I didn't develop any symptoms	11.9
To go to the shops, for groceries/pharmacy	10.9
I had just finished self-isolating because I had been in contact with a different confirmed coronavirus case	10.9
To go to the shops, for things other than groceries/pharmacy	10.6
To go for a walk or some other exercise	10.6
For a medical need (other than coronavirus)	10.4
I thought I have already had coronavirus and thought I was immune	10.4
To help or provide care for a vulnerable person	9.9
I didn't think it was necessary for me to self-isolate (not leave the home at all)	9.9
I thought it was unlikely that I had coronavirus	9.9
It had been 7 days or more since I had seen the person with a confirmed coronavirus case	9.9
I thought 14 days is too long	9.4
To go out to work	8.9
I was too depressed or anxious	8.4
I was too bored	8.4
To meet up with friends and/or family	7.4
I only developed mild symptoms	7.4
I was too lonely	6.9
I have a child and needed to look after them	6.7
I did not leave the home at all (single code)	10.9
